CASES PRODUCED	115
RELEASE DATE	September 2024

PRODUCTION NOTES

In 2020, due to two major fires, we lost the first crop from our newly redeveloped Estate Cabernet vineyard. Because the vineyard was just coming into production it was not eligible for crop insurance; this catalyzed a meaningful financial loss. The disappointment in 2020 made the 2021 harvest from our estate even more special. I think you will really enjoy our 2021 Flanagan Cabernet!

TASTING NOTES

The nose has exceptional notes of Rich black fruit, black truffle, and creme de cassis. The palate offers black plum, orange peel, Luxardo cherries, and earth notes.

Our estate Cabernet vineyard is east facing so it receives lots of sun in the morning and is cooler in the afternoon. This allows us to make beautiful, structured wines with great balance and acidity.
